

## SOK SAN PRIMARY SCHOOL

Thanks to your generosity, Sok San Primary School now has access to safe drinking water. We were able to install and donate a complete water filtration system, ensuring the children have a safe and sustainable source of clean drinking water. But our journey doesn't stop here..

Refurbish classrooms for safer, more inspiring learning spaces.

Install air conditioning and safety fans to improve comfort and focus.

Build secure fencing around the school for student safety.

Create a playground where children can laugh, play, and grow.
